EMPATHY REQUIRES

Perspective-taking, seeing others' experiences from their point of view

A nonjudgemental stance

Recognizing and connecting to emotion

Validation

CREATING A CLASSROOM CULTURE OF EMPATHY

Make empathy a core value

Define it with students (e.g., determine what empathy looks like)

Teach it; empathy is not just a trait, it is a learned skill

Plan for it (i.e., embed empathy in practices and protocols)

Practice it

TEACHING EMPATHY

Student-Friendly Concepts:

- Be Kind
- Be Curious
- Listen to Others
- Try to Understand

Make a Community Empathy Commitment

Use story books and scenarios to hold discussions around what it is, what it is not, and why it matters.

Reinforce It

CLASSROOM STRATEGIES FOR FOSTERING BELONGING

Co-created classroom norms

Utilize a culturally responsive and sustaining curriculum

Establish sacred routines for building connections and community (e.g., circles, advisory time).

Implement student collaboration protocols (e.g., *"I notice, I wonder"*)

Build family & community connections and engagement

In the background, there are majestic, snow-capped mountains under a clear, light blue sky. The reflection in the water is sharp and clear, creating a symmetrical effect. The overall color palette is dominated by blues and whites, giving it a peaceful and clean aesthetic.

*How do empathy &
belonging harness trust?*

CULTIVATING TRUST WITH THE BRAVING ACRONYM

Guide students to define and identify actions/behaviors for each element

Use the elements as a framework for co-created classroom norms

Use stories and videos to teach the different elements ;sequence elements across the 1st quarter of the year

Use the Brene Brown and Oprah video "The Anatomy of Trust" to promote discussion

Celebrate and reinforce each element

TRUST IS BUILT OVER TIME

A powerful metaphor and tool used to teach how psychological safety is based on small actions and built slowly.

*How does trust support vulnerability
and courage?*

COURAGE & VULNERABILITY

***“Courage starts with showing up and letting ourselves be seen.
It starts with being vulnerable. And, vulnerability is the
birthplace of innovation, creativity, and change.”***

-Brené Brown

Intellectual Risk

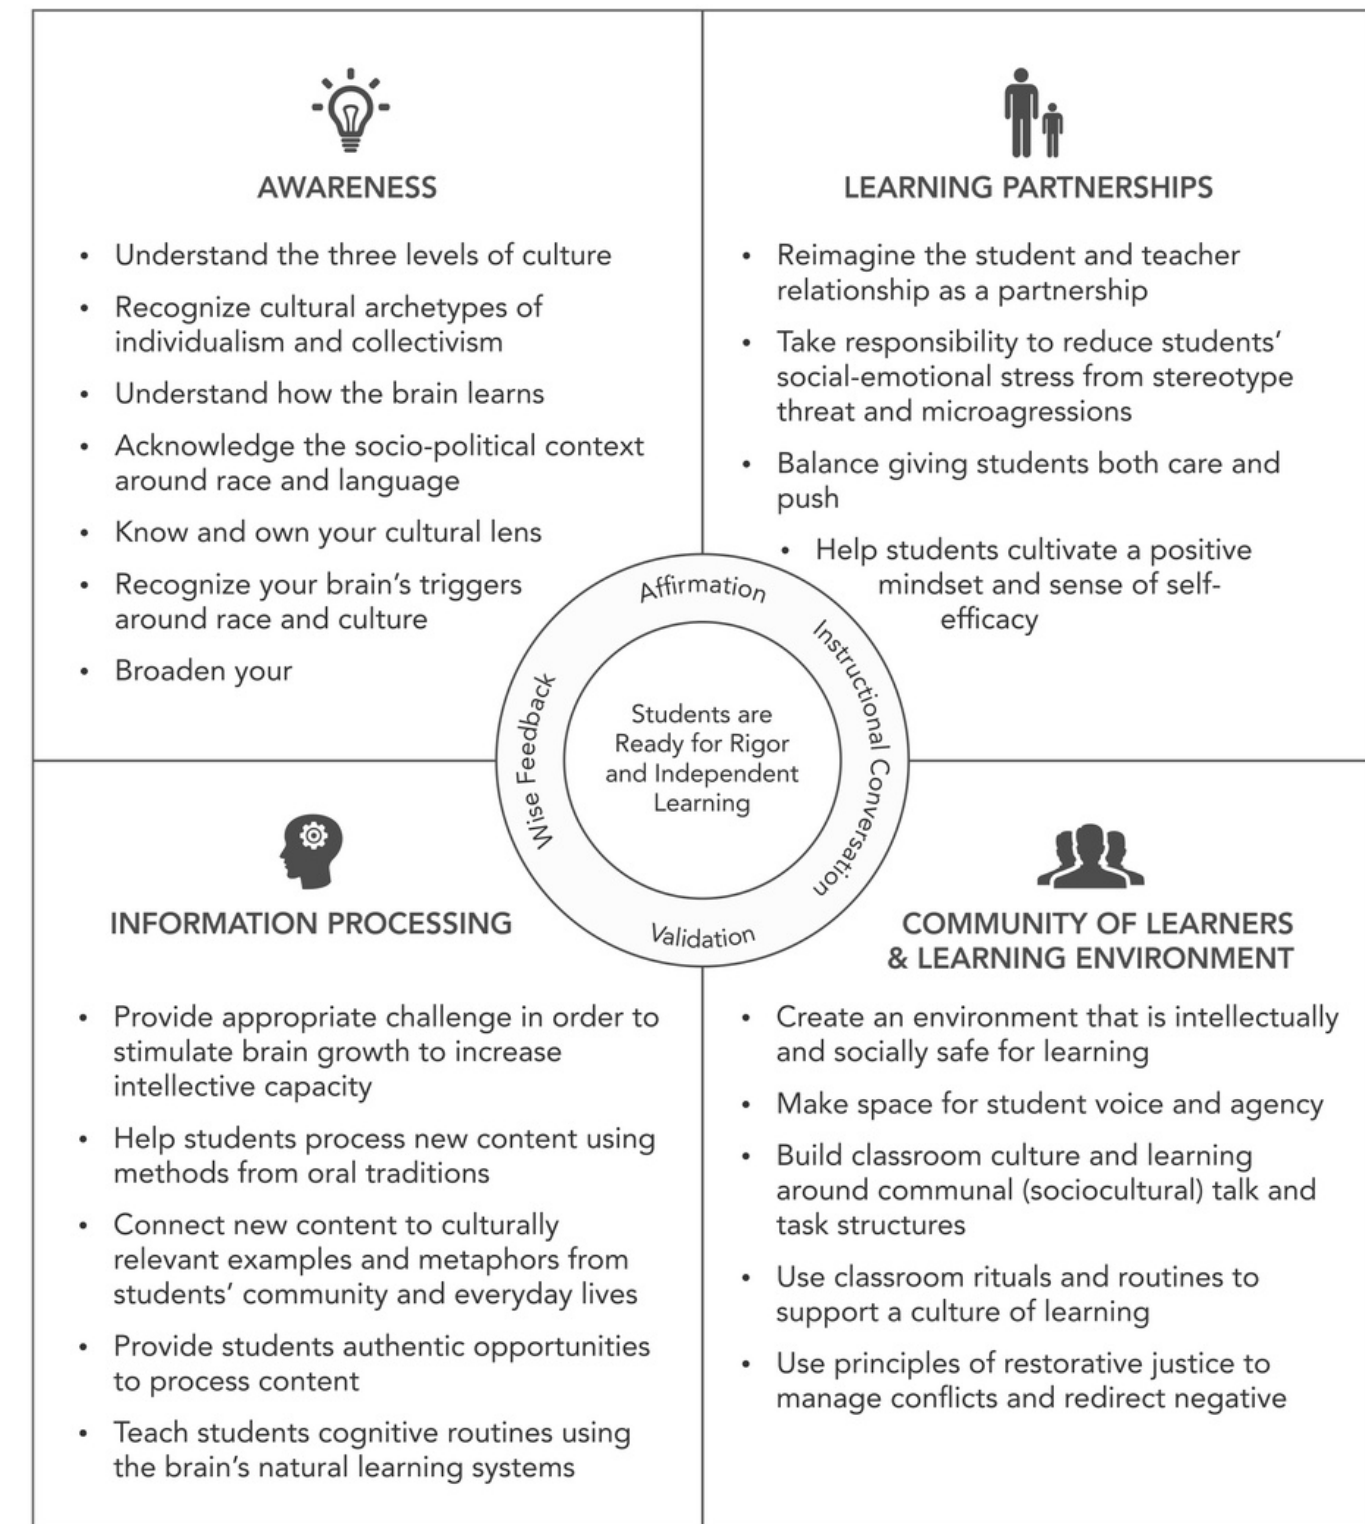

"Intellectual risk is defined as engaging in adaptive learning behaviors such as sharing ideas, asking questions, attempting new tasks, and initiating problem solving that puts the learner at risk for making a mistake"
